RHI presents:

Let's Eat - Engaging Students in School Lunch

Wednesday, November 1st, 3:30- 4:00 p.m. Mountain Daylight Time
Presented by: Molly Stenberg, RDN, Montana Team Nutrition

Have you heard of the Smarter Lunchroom Movement? Schools make simple changes in their lunchrooms to nudge students to make healthier choices and waste less food. It really works! Learn best practices from Montana middle and high schools in engaging students in creating Smarter Lunchrooms. Students' ideas help create a more appealing cafeteria and menu through a School Lunch Advisory Committee (SLAC).

Learn about a new, free Montana Team Nutrition resource, *Let's Eat - Engaging Students in School Lunch* which schools can use to 1) form a School Lunch Advisory Council (SLAC) and 2) teach middle and high school students through six lesson plans designed to meet Education Standards for Family Consumer Science, Health Enhancement and Science. If you work with middle/high school students and are interested in healthy students, school wellness, school meals, and Smarter Lunchrooms, then this webinar is for you! Please join us to learn more.

Target audience - FCS teachers, FCCLA advisors, Health Enhancement and Business teachers, Foodcorps service members, School Food Service Directors, Extension Nutrition and SNAP Educators
